Biobehavioral Effects of Early Adversity: Implications for Prevention and Intervention

Friday, October 20, 2017
9 am - 2 pm
Communities Foundation of Texas
5500 Caruth Haven Lane
Dallas, TX

Keynote Speaker:
Dr. Seth Pollak
University of Wisconsin, Madison

The forum will address the effects of early adverse experiences on children's emotional development and later psychological difficulties. Prevention and intervention strategies for at-risk children will be discussed.

Cost: $30 (includes light breakfast and lunch)
$15 for UT Dallas faculty, staff, and students.
CEUs available.
Online registration is required.
